SNAP OFF BLADE

Our professional blades are made only from the finest tool steel.

Each blade goes through a multistep production process to ensure unparalleled sharpness and superior blade retention.

Our blades with knives are ideal for industrial applications, professional contractors or for distributors to the do-it-yourself market.

Snap-off blades are an excellent choice for de-burring plastic, profile extrusion, laying flooring, trimming wallpaper, films, and so much more.

KMS-01A Series Universal Shear

INNVOATIVE, MULTI-FUNCTIONAL CUTTERS

Features:

1. Patent-pending.
2. Labor-saving structure: sectional positioning enables user to take breaks during cutting/shearing to lessen hand fatigue.
3. Progressive positioning during cutting enables user to close the cutter automatically after cutting.
4. Safety design minimizes exposure of sharp edge of cutter.
5. Adjustable cutting angle.
6. Multipurpose mitre snip with 5 angle plates and blades included for interchange.
7. Robust shears for cutting window UPVC trims, gasket seals and mitre joints.

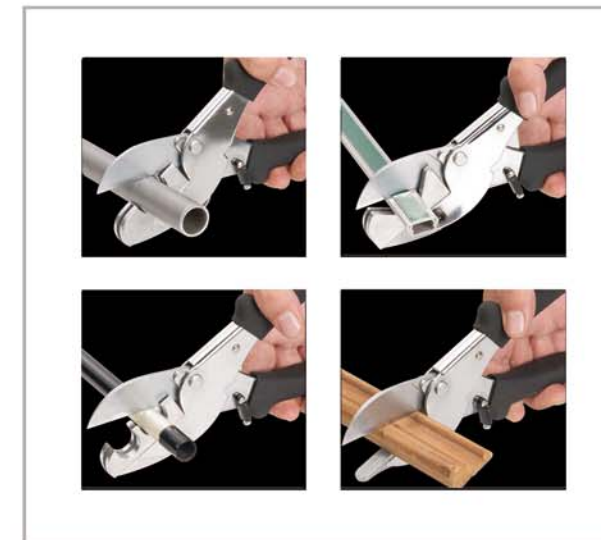

Application:

1. Cuts PVC and small wooden moldings.
2. Heavy-duty cutting of window UPVC trims, gaskets and mitre joints.
3. Cuts round plastic tubes, hoses, branches etc.
